

Retouch of Color

1. Introduction:

Retouch of Color panel is an amazing combination for a photographer. It keeps you away from boring technical Photoshop settings and gives you more time to focus on your work. The button, named "Custom Action" made especially for you to link your favorite action.

Thank you for purchasing this product. Wish you all the best in your work.

4. Custom action:

[Tutorial video](#)

For custom buttons you can link your favorite action. To do this, open Photoshop and click Window - Actions. Then find your action and disclose it, select the first action press and hold "Shift" and select the last action. Now transfer all actions into the action "Your Action". Action is now linked to the button "Action".
